

Weather and corrosion proof

### Overview

A weather and corrosion proof base station antenna supplied with a wall/pole bracket. Covers the 2G, 3G and 4G

frequency bands. This compact antenna is designed for use in areas of good signal coverage.

### Benefits and Features

- › Compact design for use in areas of good signal coverage
- › Weather and corrosion proof
- › Can be mounted on a flat, vertical surface, e.g. a wall
- › Note, for European applications only

### Technical Description

Can be mounted to a flat surface using user supplied screws or to a vertical pole 26-50 mm in diameter using the pole

mount adaptor (included).

**NOTE:** These antennae are only sold in the European market.

### Specifications

General	
Polarity	Vertical
Gain	3 dBi
VSWR	1.5 : 1
Dimensions	Height: 83 mm, Diameter: 53 mm
Cable	3 metres of RG58
Connector	SMA

Power	20 Watts
Impedance	50 Ohms
Operating Temperature Range	-30°C to +50°C
Bracket	170 mm standoff bracket
Waterproof	IP65
Material	Black, UV stable, engineering plastics
