

## Rugged, Versatile

Campbell components mount easily and securely

### Overview

The ENC10/12 is a weather-resistant enclosure that is 10 inches wide and 12 inches tall. This enclosure can house and protect a smaller data logger, a power supply, and a small

peripheral. Or it can house a peripheral that needs to be housed in an enclosure separate from the data logger.

Please note that a grounding wire is not included with the enclosure.

### Benefits and Features

- › Weather resistant to protect instruments
- › Backplate designed so that Campbell Scientific components mount easily and securely
- › White, UV-stabilized enclosure reflects solar radiation—reducing temperature gradients inside the enclosure without requiring a separate radiation shield

### Technical Description

The ENC10/12's backplate is prepunched with one-inch-on-center holes suitable for attaching a datalogger, power

supply, and a communications or measurement and control peripheral.

### Specifications

Color	White (Reflects solar radiation, reducing temperature gradients inside the enclosure without using a separate radiation shield.)	Enclosure Classification	NEMA 4X (before being modified for cable entry)
Construction	Fiberglass-reinforced polyester enclosure with door gasket, external grounding lug, stainless-steel hinge, and lockable hasps	Number of Cable-Entry Seals	1 medium, 2 small
		Dimensions	› 34.06 x 29.03 x 13.23 cm (13.41 x 11.43 x 5.21 in.) external › 30.5 x 25.4 x 11.4 cm (12 x 10 x 4.5 in.) internal
		Weight	4.1 kg (9.0 lb)
