

Rugged, Versatile

Campbell components mount easily and securely

Overview

The ENC12/14 is a medium-sized, weather-resistant enclosure that is 12 inches wide and 14 inches tall. It is our most popular enclosure that balances cost with space

requirements. This enclosure can house a datalogger, a power supply, and one or more peripherals, depending on the footprint.

Benefits and Features

- ▶ Weather resistant to protect instruments
- ▶ Backplate designed so that Campbell Scientific components mount easily and securely
- ▶ White, UV-stabilized enclosure reflects solar radiation—reducing temperature gradients inside the enclosure without requiring a separate radiation shield

Technical Description

The ENC12/14's backplate is prepunched with one-inch-on-center holes suitable for attaching a datalogger, power

supply, and a communications or measurement and control peripheral.

Specifications

Color	White (Reflects solar radiation, reducing temperature gradients inside the enclosure without using a separate radiation shield.)	Number of Cable-Entry Seals	2 medium, 4 small
Construction	Fiberglass-reinforced polyester enclosure with door gasket, external grounding lug, stainless-steel hinge, and lockable hasps	Dimensions	<ul style="list-style-type: none"> ▶ 35.6 x 30.5 x 14 cm (14 x 12 x 5.5 in.) internal ▶ 33.48 x 28.32 x 17.6 cm (13.18 x 11.15 x 6.93 in.) internal under the lid space ▶ 39.12 x 33.96 x 19.51 cm (15.4 x 13.37 x 7.68 in.) external
Enclosure Classification	NEMA 4X (before being modified for cable entry, conduit, or ground lug)	Weight	5 kg (11.2 lb)
