

# CERTIFICATE OF COMPLIANCE

## EU RoHS, REACH, & California PROP 65 Declaration of Conformity

This declaration of conformity is issued under the sole responsibility of the manufacturer:

Apogee Instruments, Inc.  
721 W 1800 N  
Logan, Utah 84321  
USA

Apogee Instruments hereby certifies that our products are produced in accordance with, and are compliant to:

RoHS 2 – Directive 2011/65/EU

RoHS 3 – Directive 2015/863/EU

REACH – Regulation (EC) No. 1907/2006 Annex XVII

CA PROP 65 – Safe Drinking Water and Toxic Enforcement Act of 1986

### RoHS 2 and RoHS 3

The Restriction of Hazardous Substances (RoHS) restrict the use of specific hazardous materials found in electrical and electronic products. Based on the information available to us from our raw material suppliers, the products manufactured by us do not contain, as intentional additives, any of the hazardous substances except in the case of some mechanical cable assemblies containing greater than 0.1% by weight lead concentration. However, these articles maintain compliance under RoHS Annex III, exemption 6(c).

### REACH

The Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH) addresses the production and use of chemical substances and their potential impact on human health and the environment. Based on the information available to us from our raw material suppliers, the products manufactured by us do not contain, as intentional additives, any of the hazardous substances except in the case of some mechanical cable assemblies containing greater than 0.1% by weight lead concentration. However, when used as intended these articles maintain compliance under RoHS Annex III, exemption 6(c).

### CA PROP 65

California's Proposition 65 is a voter initiative designed to protect citizens and sources of drinking water from harmful chemicals known to cause cancer, birth defects, or other reproductive harm. Based on the information available to us from our raw material suppliers, the products manufactured by us do not contain, as intentional additives, any of the hazardous substances except in the case of some mechanical cable assemblies containing greater than 0.1% by weight lead concentration. However, when used as intended these articles maintain compliance under PROP 65 exemption: exposures that pose no significant risk of cancer.

Signed for and on behalf of:

Apogee Instruments, January 2020

Bruce Bugbee

President
