²The Usage Period refers to the time the USER has access to the Radio Test Kit (Equipment). The Usage Period starts on the first business day after delivery or attempted delivery of the Equipment. To avoid late fees, the Equipment needs to be in the possession of the return carrier by close of the business day on the last day of the Usage Period. ³The Usage Fee is based on the Usage Period. The Usage Fee shown typically includes shipping to and from the USER (unless indicated otherwise in step 3 below). The Usage Fee does not include taxes, or any fees resulting from late or damaged Equipment. See Terms and Conditions attached hereto (Terms and Conditions).
⁴The Terms and Conditions are incorporated into and made part of this Agreement by this reference. By signing above, USER acknowledges receipt of the Terms and Conditions, and represents that the USER understands and agrees to the Terms and Conditions.
