

Overview

The CFMC16G is a 16 GB, industrial-grade CompactFlash card that has been selected specifically to provide optimum performance and extreme reliability. It is used with

the [CFM100](#), [NL115](#), [NL116](#), or [CF1](#) to expand a data logger's memory and to transport data, camera images, programs, and operating systems without having to use a PC.

Detailed Description

A PC can read/write data stored on the CFMC16G by using

either the CF1 CompactFlash adapter or 17752 Reader/Writer.
