

## SP370

### 370 W Solar Panel

## Our Most Powerful Solar Panel

For remote systems or systems with large power requirements

### Overview

The SP370 370 W Solar Panel is a photovoltaic power source capable of recharging batteries. It is used in systems that require high-power solar panels. The SP370 allows unattended operation of systems in remote locations, far from ac electrical sources. The cable length for the solar panel is user-selectable.

For ease with mounting the solar panel to the mast and leg braces of a CM106B tripod, mounting hardware is available as an accessory item.

### Specifications

Maximum Peak Power	370 W
Current at Peak $I_{pmax}$	9.69 A
Voltage at Peak $V_{pmax}$	38.34 Vdc
Maximum Surface Load (wind/snow)	» 5400 Pa (112.8 psi) front load » 4000 Pa (83.5 psi) rear load

On-board Regulator Included	No
Dimensions	179.5 x 99 x 3.8 cm (70.7 x 39.0 x 1.5 in.)
Weight	19 kg (41.9 lb)
